**2. HAZARDOUS COMPONENT INFORMATION**

% (p/p)	Hazardous Ingredient	CEE	EINECS	N° CAS	Symbol	R-Phrase
0÷5	Diazodinitrophenol			87-31-0	E	R2
0÷5	Tetracene			109-27-3	None	None
0÷5	PETN	603-035-00-5	201-084-3	78-11-5	E	R3
0÷5	Nitrocellulose	603-037-00-6		9004-70-0	E	R1-R3
0÷5	Barium Nitrate	056-002-00-7	233-020-5	10022-31-8	Xn	R20/22
0÷5	Antimony Sulphide		215-713-4	1345-04-6	Xn	R20/21/22-R36/37/38-R40
0÷5	Aluminium	013-001-00-6	231-072-3	7429-90-5	F (dust)	R15-R17
60÷80	Copper		231-159-6	7440-50-8	None	None
20÷30	Zinc		231-175-3	7440-66-6	F (dust)	R15-R17

***Product Commercial Name: Leadless Boxer Primers for Centerfire Ammunitions*****3. HAZARDS IDENTIFICATION**

**Explosive:** Risk of explosion by shock, friction, fire or other source of ignition.

**Harmful:** Harmful by inhalation and if swallowed. Irritating to eyes, to respiratory system and to skin. Danger of cumulative effects.

**4. FIRST AID MEASURES**

**Eye Contact:** If affected by particles hold eyelids apart and flush eyes thoroughly with water for 15 minutes at least. If wearing contact lenses, immediately remove lenses. Obtain medical attention immediately.

**Skin Contact:** If affected by particles wash affected area thoroughly with soap and water.

**Ingestion/Absorption:** Immediately contact a physician.

**5. FIRE HAZARDS**

**Particular Hazards in Case of Fire or Explosion:** Risk of explosion by shock. In case of fire or explosion it emits nitrogen oxides, carbon oxide, carbon dioxide, barium and antimony dust/fumes.

**Extinguishing Media:** Use water to fight fire. If no water is available, carbon dioxide, dry chemical or earth may be used.

**Not Proper Extinguishing Media:** Any extinguishing media different from those above mentioned.

**6. ACCIDENTAL RELEASE MEASURES**

**Personal Care:** Use shovel and broom to pick up. Avoid fire, sparks and any other ignition source; you don't need any particular media except appropriate I.P.D. against metallic sharp-pointed particles.

**Environmental Care:** Do not disperse product in the environment after use.

**Personal Care after Exposure:** There are no medical conditions known to be aggravated by exposure to this product in solid form.

**7. HANDLING AND STORAGE**

**Handling:** Do not smoke during the use of the product. Use primers only in ammunitions and in firearms corresponding to regulations in force as far as size and structural characteristics are concerned. If gun fails to fire, remember that delayed fire may occur, or the gun may fire upon being opened. Carefully unload gun after waiting for a few seconds. Do not try to open the primer.

**Storage:** Do not smoke in the area where primers are stored. Store them in a cool, dry, well ventilated area away from all sources of ignition. Avoid mechanical impact or shock, electrical discharge, acids, caustics and strong oxidizers.

***Product Commercial Name: Leadless Boxer Primers for Centerfire Ammunitions*****8. PERSONAL PROTECTION / EXPOSURE CONTROLS**

**Engineering Controls:** Local exhaust ventilation is recommended if significant dusting occurs or fumes are generated. Otherwise, use general exhaust ventilation. Use explosion-proof ventilation.

**Eye Protection:** Use safety glasses during handling and firing.

**Skin Protection:** Not normally needed.

**Hearing Protection:** Not normally needed; during firing use ear protection.

**Respiratory Tract Protection:** Not normally needed.

**Exposure Limits:** Exposure limits are fixed for each hazardous chemical.

**General Hygiene:** Do not drink, eat or smoke while using this product. Wash hands carefully after having used the product.

**9. PHYSICAL AND CHEMICAL PROPERTIES**

**Form:** Brass cup with typical colour.

**Physical State:** Solid.

**Solubility in Water at 20°C:** Insoluble.

**Explosion Temperature:** > 130°C

**10. STABILITY AND REACTIVITY**

**Chemical Stability:** Stable under normal use conditions. It does not react with water.

**Incompatibility:** Incompatible with acids, strong oxidizers and caustics.

**Decomposition Product:** Carbon monoxide, carbon dioxide, nitrogen oxides, dust/fumes of barium and antimony.

**Polymerisation:** Will not occur.

**Further Information:** Must be avoided flames, sparks, shock, static, high temperatures (100°C or 212°F, or above).

Only original boxes avoid a sympathetic explosion of the primers; so keep them in their original packing and handle only the primers that are necessary for an immediate use.

**11. TOXICOLOGICAL INFORMATION**

The solid state of the product before use doesn't permit the absorption of toxic substances for man.

**Inhalation:** In case of explosion dust, fumes and vapours may cause irritation to nose, throat, upper respiratory tract and lungs. Irritation may cause bronchitis, headache, lowering of blood pressure and weakness.

**Skin Contact:** Dust and fumes may cause allergic reaction in susceptible individuals.

**Eye Contact:** Dust and fumes can irritate the eyes causing redness and discharge.

**Ingestion:** Ingestion may cause severe headache, nausea, vomiting, abdominal pain, fatigue, diarrhoea, trembling, ringing in ear, salivation and, probably, other unknown effects.

**12. ECOLOGICAL INFORMATION**

No data is available on this product about its toxicity towards environment.

When used and disposed of properly, there is no known environmental impact.

Do not disperse product in the environment after use: heavy metals can solve and pollute water.

**Degradability:** Not biodegradable.

***Product Commercial Name: Leadless Boxer Primers for Centerfire Ammunitions*****13. DISPOSAL CONSIDERATION**

Discarded primers must be placed in their original boxes and then sent to destruction. Do not dump into sewers, on the ground, or into any body of water. Contact a firm properly designed for thermo destruction of ammunitions. Disposal must be in accordance with applicable local, state and federal laws and regulations.

**14. TRANSPORTATION INFORMATION**

	IMDG CODE	RID/ADR CODE	IATA RESTR. ART.	RINA CLASS
CLASS	1	1	PRIMERS, CAP TYPE Article N° 160	CLASS 1  1.116

**15. REGULATORY INFORMATION**

**Danger Symbols:** E Explosive  
Xn Harmful

**R Phrase:** R2 Risk of explosion by shock, friction, fire or other sources of ignition.  
**R Phrase:** R20/22 Harmful by inhalation and if swallowed.  
**R Phrase:** R33 Danger of cumulative effects.  
**R Phrase:** R36/37/38 Irritating to eyes, to respiratory system and to skin.  
**S Phrase:** S2 Keep out of the reach of children.  
**S Phrase:** S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.  
**S Phrase:** S45 In case of accident or if you feel unwell, seek medical advice immediately (show the label whenever possible.)  
**S Phrase:** S28 After contact with skin, wash immediately with plenty of soap-suds.

Classification according to:

- Decreto Legislativo n.285 del 16 luglio 1998
- Decreto 14 giugno 2002: Recepimento della direttiva 2001/59/CE recante XXVIII adeguamento della direttiva 67/548/CEE.
- Decreto Legislativo n. 272 del 19 settembre 2002
